

The Children's Center
Bethany, Okla.

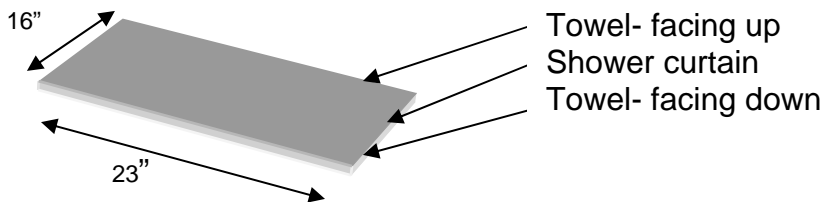

Bib Instructions

2- Hand towels, Kitchen towels, or 2 pieces of terry cloth- approx. 23" long x 16' wide. PRE-WASH towels or fabric BEFORE SEWING.

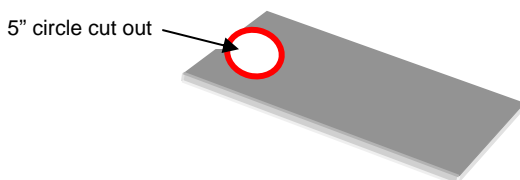

If you are using a bath towel, cut off finished edges before sewing layers together.

Sheet of plastic- cut same size as towels- can cut up shower curtain
Double Fold Bias tape or Bias Trim

Layer all three together. Right sides out on towels with layer of plastic sandwiched in between. Serge or zigzag around all edges to secure. "Rounding" the four corners will make the bias tape application easier.

Find center point on 16" side and draw 5" circle for neck opening. Cut through edge of towels and through all three layers to form neck opening. Zigzag edges together.

Enclose neck edge with bias tape. Enclose all outside edges with bias tape and catch neck opening edges. (Rounding edges makes tape application easier)

Stitch Hook and Loop tape (Velcro) to either side of edge opening to create fastener to go around neck.
